## About me

I am a third year student (Bachelor studies) at the Faculty of Computational Mathematics and Cybernetics, Mathematical Methods of Forecasting department, Lomonosov Moscow State University.

## Skills

(\*)[The skill scale is from 0 (Fundamental Awareness) to 6 (Expert).]

## Education

2017-2019	Moscow State University Computational Mathematics and Cybernetics faculty	Moscow
2019-2021	Moscow State University Mathematical Methods of Forecasting department	Moscow

## Courses

2018	Introduction into Machine Learning by Professor Alexander Dyakonov (Top 1 rank on Kaggle platform in 2012).
2018	Introduction into computer vision and deep learning by Anton Konushin.
2018	Neural methods of processing images by Victor Kitov
2019	Top 2% (34 of 2300) of all participants at 6-th session of mlcourse.ai
2019-now	Passing Audio Signal Processing for Music Applications on Coursera

## Competitions, Achievements

2018, Dec.	Credit scoring task (binary classification) Top 2% (2 of 103)	Kaggle
2019, Feb.	Sustainable Industry: Rinse Over Run (predict timeseries) Top 5% (67 of 1217)	DrivenData
2019, Jun.	Instant Gratification (synthetic data, binary classification) Top 10% (173 of 1832)	Kaggle
2019, Jul.	Freesound Audio Tagging 2019 (sound recognition, multiclass) Top 17% (148 of 880)	Kaggle
2019, Aug.	Predicting Molecular Properties (regression) Top 6% (141 of 2749)	Kaggle
2019, Sep.	APTOS 2019 Blindness Detection (images, multiclass) Top 7% (178 of 2943)	Kaggle
2019, Sep.	Kaggle expert Top 2% (1933 of 125499) in Kaggle rankings	Kaggle
2019, Oct.	IEEE-CIS Fraud Detection (binary classification) Top 13% (818 of 6381)	Kaggle

## Work experience

2019, Jul.–Oct.	Huawei Technologies Co.,Ltd., Media Algorithm Lab Audio and speech recognition	Internship
-----------------	---	------------

## Professional interests

- I am studying at the Mathematical Methods of Forecasting department under academic supervision of a Russian Academy of Science Professor Alexander Dyakonov (Top 1 in Kaggle rankings in 2012).
- Subject of my scientific work is audio recognition. Review of my research activity could be found in this GitHub repository and in this table: Activity report, which contains two sheets:
  - Activity report with short reviews (partly on Russian, partly on English).
  - Detailed articles review (fully on English).

## Other information

- Master of Sports of Russia in swimming and a member of the MSU swimming team.
- 325 extra-hours (apart from secondary school studies) of English.
- Two weeks language practice at Limerick Language Centre (Ireland), Summer 2018.
